

# EASTER Ideas

April 2011

Dear Grandmothers around the world,

We dearly love our grandchildren, don't we? They are precious highlights in our lives. And, we are always looking for ideas of activities that we can do with them. Especially on holidays.

Here are some links to crafts, paper-based projects, coloring pages, and recipes that you can use with your grandchildren. Most of these activities are easy to do – mainly because I'm not a crafty person. (My husband says that I'm shifty – such a play on words!)

I hope that one or two of these things will jump out at you and say, "Use me! Use me!" And, I hope that as you do these activities, your relationship with your grandchildren will be strengthened and that you will create fond memories with them.

Give your grand kiddos lots of hugs and kisses while you're doing these projects. One of the best things that a grandmother can do for her grandchildren is to love them unconditionally.

Here's to a 'hoppy' Easter!
